Dear Sir

With reference to your advertisement for a Software Engineer in *The Times of India* dated 8 May 2018, I would like to apply for the same post. I believe that I am the most suitable candidate for this position, as my professional background and your requirement is a perfect match. I am very much interested in working as a Software Engineer in your esteemed company. I enclose my resume for exploring the possibilities of employment with Cisco private limited.

I have worked as a Junior Software Engineer in Satyam Computers for three years. I was involved in developing a graphical user interface for Metadata Management System. So, I have gained experience in Java Swing, Java Security, Jdbc and Oracle. In addition to that, I have also worked on web designing.

I assure you that I will work hard and will be able to contribute efficiently for the growth of your organization. Furthermore, I work well with others and can lead a team too.

I will be obliged if I am given an opportunity to present myself in person. Thank you for your consideration.

Yours sincerely

Mary
